PROFILE

Final year BSc Computing student at National College of Ireland specialising in cybersecurity, with hands-on enterprise IT Service Desk experience gained during my work placement with Dublin City Council's Planning IT Department. Experience in Active Directory administration, Intune device management, and structured troubleshooting and problem solving within enterprise environments. Strong foundation in networking, digital forensics, secure application development, penetration testing, and IT governance. Available for full time roles upon course completion (June 2026).

TECHNICAL SKILLS

IT Support & Systems: Active Directory, Microsoft Intune, Oracle Identity Manager, Windows 11 deployment, PXE imaging, Alemba INFRA ticketing, Citrix CAG, Safenet MobilePass (2FA), Topic email security.

Networking: TCP/IP, LAN/WAN, IP Addressing, Subnetting, Cisco Routers & Switches, Cisco Packet tracer, Wireshark OSI Models.

Cybersecurity & Governance: Vulnerability assessment fundamentals, penetration testing concepts (OWASP Top 10), digital forensics fundamentals, secure coding principles, Kali Linux (Oracle VM), authentication & session security, role-based access control, security governance & GDPR awareness, DevSecOps and CI/CD security concepts.

Development & Tools: Git/Github, Node.js, Express, MySQL, Flask, Java, Python, PHP, HTML, CSS, JSON, XML, API integration.

EDUCATION

2022-2026 | National College of Ireland | Bachelor of Science (Honours) in Computing

Results to Date: Overall Average 77.7 (First Class Honours, Summer 2025)

Year 1: Computational Thinking, Discrete Mathematics, Problem Solving and Programming Concepts, The Computing Industry, Web Design and Development, Computer Architecture, Digital Multimedia, Introduction to Data Modelling and Databases, Introduction to Programming, Operating Systems.

Year 2: Advanced Databases, Data Communications and Networking, Object Oriented Programming, Web Application Development, Data Structures and Algorithms, Innovation and Business Entrepreneurship Software Engineering, Software Quality and Testing, Team Project.

Year 3: Advanced Computer Networks, Security Fundamentals and Development, Advanced Programming, Introduction to Artificial Intelligence and Machine Learning.

Year 4: IT Governance, Security and Ethics, Cloud Application Development, Secure Application Programming, DevOpsSec, Digital Forensics, Penetration Testing.

PROJECTS

MealMethod - <https://github.com/aarongoso/MealMethod>

- A dynamic web application using PHP, Javascript and MySQL integrating the Edamam API.

Online Portfolio - <https://aarongoso.github.io/AaronGoslinPortfolio/>

- My online portfolio made with HTML, CSS and JavaScript to showcase academic work.

ChronicPal – Final Year Project - <https://github.com/aarongoso/ChronicPal>

- Designed and developing a security first full stack healthcare web platform supporting patients, clinicians, and administrators with strict privacy and auditability controls.
 - Implemented JWT authentication, Multi-Factor Authentication (MFA) and Role-Based Access Control (RBAC) to enforce secure separation between patient, doctor, and admin roles.
 - Developed secure file upload pipelines with input validation, antivirus scanning, and AES-256-GCM encryption for sensitive clinical data.
 - Built backend services using Node.js, Express, and MySQL with structured relational data modelling and audit logging aligned with OWASP practices.
 - Integrated a Flask-based microservice for AI-driven symptom analysis and risk prediction, secured through token validation and internal service authentication.
-

WORK EXPERIENCE**01/25 - 07/25 | Dublin City Council, Planning IT Department – Work Placement – IT Helpdesk Support**

- Imaged and deployed 70+ PCs and laptops (Windows 11 M365) using PXE boot, configuring BIOS (RAID to AHCI) and Intune/Company Portal for secure app deployment.
- Managed user accounts and passwords via OIM and Active Directory, enforcing bi-monthly password resets and granting access to shared drives and groups.
- Provided onsite and remote troubleshooting for hardware/software issues across multiple locations (e.g., City Hall, Palace Street and other sections in the Dublin City Councils office), resolving 400+ IT tasks via Alemba INFRA ticketing system.
- Participated in weekly Agile-style meetings to discuss task progress, prioritize workloads, and align with team objectives, enhancing collaboration with other departments across the council.
- Scanned and released quarantined emails using Topsec, ensuring secure email delivery.
- Developed step-by-step troubleshooting guides, reducing repetitive support tickets by empowering users to resolve minor issues independently.
- Created user accounts and unlocked files in APAS (planning application system).
- Configured MobilePass and CAG (Citrix) for secure remote access, provisioning Safenet tokens for 2FA.

5/22 - Present Excel Recruitment – Part time - Event Staff

- Working in fast paced environments and in flexible positions such as bar staff, customer service, checkouts, catering and waiter for events.
- Working in various locations and have been able to adapt to the new surroundings each time in places such as the 3 Arena, Croke Park, Leopardstown Racecourse, The Curragh Racecourse, Fairy House Racecourse, St Annes Park, Royal Kilmainham Hospital and Fairview Park.
- Dealing with customers who are consuming alcohol and ensuring, based on behaviour and other factors, not to overserve anyone who is inebriated.
- Being responsible to ensure that each person I serve alcohol to is over the age of 18 and has the correct form of identification.
- Communicating effectively as a team with people of all ages and nationalities as we ensure all our tasks are carried out in the correct manner to customer's needs.

10/21 - 5/22| Dunne's Stores Pavilions – Full time - Shop Floor Staff

- Kept my designated section neat and intact and making sure all stock was fulfilled.
 - Worked very flexible hours (40 each week) and was always present when called upon.
 - Was responsible for date checks to ensure nothing was out of date, so everything was in line for the customers to purchase.
 - Cleaned my section and made sure there were no hazards for customers to be at risk.
 - Checked stock count and taking note of what had to be ordered for the following week.
 - Made great friends with my colleagues in my section and other sections which resulted in us forming a strong team resulting in work being completed to a high standard efficiently and swiftly.
-
